Professional Summary

MEAN Stack Developer with 4 years of experience designing, developing, and deploying scalable full-stack web applications using MSSQL, MySQL & MongoDB, Express.js, Angular, Node.js and NestJS. Delivered 20+ end-to-end MEAN stack projects, specializing in REST API development, internationalization (i18n), and state management (NGXS, NGRX). Proficient in building responsive UIs and secure backends with OWASP standards. Passionate about clean code, Agile methodologies, and optimizing application performance.

Technical Skills

- **MEAN Stack:** MSSQL, MySQL & MongoDB, Express.js, Angular (v9–v16), Node.js, NestJS.
- **Frontend:** TypeScript, RxJS, Angular Material, NGXS, NGRX, Angular Universal (SSR & SSG), HTML5, CSS3, JavaScript (ES5–ES16), Bootstrap 5, NGX Bootstrap, Highcharts.
- **Backend:** REST APIs, Sequelize ORM, Mongoose ODM, JWT Authentication, OAuth2, AD Auth.
- **Databases:** MongoDB, MySQL, MSSQL, Stored Procedures and Triggers.
- **Security:** OWASP Top 10, XSS/CSRF/SSRF Protection, Helmet.js, Passport.js, CORS, CSP Headers, Rate Limiting.
- **DevOps & Tools:** Git, GitHub, TortoiseSVN, Jenkins (CI/CD pipeline), Docker, Nginx, IIS, Jira.
- **Methodologies:** Agile, Scrum, Code Reviews.

Professional Experience

SecurEyes Techno Services Pvt. Ltd. – Bengaluru, India (Hybrid)

MEAN Stack Developer — Aug 2023 – Sept 2025

- Worked SE-TPTrac is a Third-Party Governance, Risk & Compliance Management platform for Banking Domains. It helps companies track, manage, and monitor the risks associated with their third-party vendors and service providers.
- Developed multi-tenant risk platform using MSSQL, Express.js, Angular, and Node.js, implementing internationalization Setup (i18n) for English and Arabic.
- Built REST APIs with Express.js and Node.js, integrating with MSSQL for efficient data management.
- Designed responsive Angular front-end with Angular Material with MVVM pattern, improving UI scalability.
- Ensured secure API development with JWT authentication and OWASP Top 10 compliance, reducing vulnerabilities.
- Managed CI/CD pipelines with Jenkins and deployed applications using Docker.

Key Projects:

- **SE-TP Trac:** Built full-stack MEAN application with multi-tenant architecture and i18n support.
- **SE-Product Subscription:** Developed end-to-end subscription management system with Angular UI and Node.js/Express.js backend.

Aspire Edu-Soft Pvt. Ltd. – Udaipur, India (Hybrid)

MEAN Stack Developer — May 2022 – Jul 2023

- Led 15+ MEAN stack projects, including hotel systems and edtech platforms, using MongoDB, Express.js, Angular, and Node.js.
- Developed REST APIs with Express.js and integrated with MongoDB and MySQL.
- Implemented Angular-based UIs with RxJS and NGXS for state management and improved user experience.
- Optimized application performance with Angular Universal (SSR) and Sequelize, reducing page load times.
- Collaborated in Agile teams, using Jira for task management and Git for version control.

Rudrohom Contrade Pvt. Ltd. – Udaipur, India (On-site)

Junior Web Developer — Jan 2022 – Apr 2022

- Backends using Node.js, Express.js, ensuring efficient data storage and retrieval.
- Developed Angular-based front-ends with NGXS for state management, improving UI responsiveness.
- Implemented secure APIs with JWT authentication, enhancing application security.

Education

- BCA – Bachelor of Computer Applications - MDS University Ajmer Rajasthan (2018 – 2021)
- Senior Secondary (Science – Mathematics), Govt. Sr. Sec. School, Bhilwara Rajasthan (2017)

Languages

- English – Professional Proficiency
- Hindi Native / Full Proficiency

Personality Traits

- Quick Learner and Strong Problem-Solving
- Passionate about Clean Code and Scalable Architecture
