PROJECTS

- **SE-TPTrac (Third-Party Risk Management)** - SecurEyes Techno Services Pvt. Ltd.

Digital relationships with third-party providers increase opportunities for growth, but they also increase opportunities for cyberattacks. Third-Party Risk Management (TPRM) is the process of analysing and controlling the risks presented to your organisation by outsourcing to third-party vendors (TPV). Monitoring the TPV compliance status helps provide the organisation with assurance and awareness about whether or not the vendor is complying with the applicable requirements for the services provided.

- **SE-RiskTrac (All-in-One Risk Management Platform)** - SecurEyes Techno Services Pvt. Ltd.

SE-RISKTRAC is a comprehensive solution that digitizes your **Operational Risk Management (ORM)** and **Business Continuity Management (BCM)** processes.
