LinkedIn: www.linkedin.com/in/md-sajidmohammad

Professional Summary

Angular Developer with 4+ years of experience designing, developing, and deploying scalable front-end web applications using Angular (v9–v16), TypeScript, and RxJS. Delivered 20+ Angular-based projects, specializing in internationalization (i18n), state management (NGXS, NGRX), and performance optimization. Adept at building responsive, user-friendly interfaces with Angular Material and Bootstrap. Passionate about clean code, modern front-end architecture, and Agile methodologies.

Technical Skills

- **Frontend**: Angular (v9–v16), Angular Universal (SSR & SSG), TypeScript, RxJS, Angular Material, NGXS, NGRX
- **Web Technologies**: HTML5, CSS3, JavaScript (ES5–ES16), Bootstrap 5, NG Bootstrap, Chart.js, Highcharts
- **Tools & Practices**: Git, GitHub, Jenkins (CI/CD), Docker, Nginx, Jira, Agile, Scrum
- **Security**: OWASP Top 10, XSS/CSRF protection, JWT Authentication, HTTPS, CORS
- **State Management & Design**: Redux, Oops, Design Patterns
- **Complementary Skills**: Basic React.js, Node.js (for Angular integration)

Professional Experience

SecurEyes Techno Services Pvt. Ltd. – Bengaluru, India (Hybrid)

Angular Developer — Aug 2023 – Present

- Developed SE-TP Trac, a multi-tenant risk platform using Angular, TypeScript, and RxJS, implementing internationalization (i18n) for English, Arabic, and French.
- Built reusable Angular components and optimized performance, reducing load times by 25%.
- Integrated Angular Material and Bootstrap for responsive, user-friendly UI/UX.
- Utilized NGXS for state management, improving application scalability and maintainability.
- Collaborated in Agile teams, conducted code reviews, and managed CI/CD pipelines with Jenkins and Nginx.
- Ensured front-end security by addressing OWASP vulnerabilities, including XSS and CSRF protection.

Key Projects:

- **SE-TP Trac**: Led Angular-based front-end development for a multi-tenant platform with i18n support.
- **SE-Product Subscription**: Built subscription management UI using Angular and NGRX for state management.

Aspire Edu-Soft Pvt. Ltd. – Udaipur, India (Hybrid)

Angular Developer — Apr 2022 – Jul 2023

- Developed 15+ Angular-based web applications, including hotel management and edtech platforms, using Angular, TypeScript, and Angular Material.
- Implemented state management with NGXS and RxJS for real-time data handling, improving user experience by 20%.
- Optimized SEO and performance with Angular Universal (SSR), increasing page load speed by 30%.
- Worked in Agile teams, using Jira for task management and Git for version control.
